Year 1

Autumn Term

You can help your child to enjoy and contribute to discussions in class by visiting areas of interest related to their learning.

English

We will be looking at familiar stories identifying main characters and events in stories.We will be learning to write in full sentences with spaces, capital letters and full stops. We will be extending vocabulary to include adjectives and connectives- and, because.

Phonics

Children will recap set 1 and will be introduced to set 2 in phonics.

Maths

We will be working to:

- secure our knowledge of numbers 1-20 and beyond.
- add/subtract using symbols.
- recognise 2d shapes and their properties.
- use 2d shapes to make repeated patterns.
- recognise the value of coins up to 10p.

Science

We will be learning about:

- different parts of our bodies.
- what we need to survive.
- our senses.
- animals and their habitats.

Art & Design

Artist: Paul Klee

We will explore the artist's work looking at pattern, colour, media and portraits.

Computing

We will be learning to log on/off the computer independently and opening and closing familiar programs.

P.E.

Ball skills

We will be working on building our throwing and catching skills.

Dance

We will tell stories through dance.

Humanities

We will be learning

- how to place objects or events in chronological order including our life cycle.
- Using questioning skills to find out about the past.
- We will learn about our school and its features.

PSHE

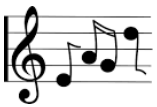

We will decide the class rules and how to work co-operatively.

R.E.

We will explore the features of a church.

Music

We will continue to learn whole school songs, both seasonal and for the Christmas performance.
